Cruisin the Coast Memories—provided by Rodney and Martha

Great memories of the club members doing events together

I found some pictures of *Cruisin the Coast* which started some reminiscing about some of our club's trips in the early 2000's before Hurricane Katrina. Club members would load up their cars the first week in October, at least three of us on trailers, and head out for Biloxi, Mississippi for the *Cruisin of the Coast*.

It required an overnight stop in Monroe, LA at a motel with parking lot large enough to accommodate the cars and trailers. This always attracted many lookers and great conversation. As we traveled, it was always a challenge to stay together, finding a rest stop area for catch up and the pit stops. Of course there were always construction projects to slow us down. The Love Bug episode cannot be forgotten—covering everyone's cars. The first thing on arrival was to find a car wash to get this "bug juice" off so that it did not ruin the paint finish.

Rodney and True with Dennis Gage.

The next year, Rodney's Gold tag had a fish eye photo in the cruising of the coast flier.

Great memories of the club members doing events together

Curtis and Kay Welch in their “Frog” following Larry and Annette in the Nomad

- John Dragoo and Mahala Jones doing the Twist on a trailer in front of the whole crowd at the VA car show location—Elvis Time, the theme. Bodies still limber.
- One year, it rained so hard, we improvised a car gathering in the hotel parking lot garage as we were unable to cruise.
- David Reeds and Rodney did a skit at club meeting following one year’s event.
- Cruisin started with 500 cars and increased to 2000, and now 8,000.cars—hard to image that many cars on a beach highway from Bay St. Louis to Ocean Springs.
- In the early 2000’s, casinos sponsored events for those with registered cars, Beach parties, burn outs, reserved parking lots, come and go events on the coast line. Katrina changed things with many southern style homes and casinos gone.
- Larry always available to handle the car mechanical problems—Many thanks Larry.
